PICKLEBALL
ROCKS

Preserve neighborhood upkeep depends on each resident doing their part in being a good neighbor by adhering to the rules and regulations of The Preserve.

These are provided when you purchase your property and are available on our website. The Board and staff help you do this by our design review process which ensures that the standards identified in our Covenants for improvements, additions, landscaping and general remodeling of individual properties are met.

Here are some excerpts from Preserve Rules and guidelines:

-Trash, yard waste and recycling containers may not be stored outside in the open, but must be stored inside the garage or screened from public view. This is also a city code.

-There are nearly 200 acres of common property in the Preserve. Please do not dump refuse or yard waste into these areas or allow your yard to encroach into these areas. However, if you would like to improve or maintain the common areas by picking up trash, pulling buckthorn, invasive weeds, or removing brush etc., contact the office and we will be delighted to work with you.

-All yard debris must be disposed of within one week and may not be piled up or kept on private property or dumped on Preserve common property. This is also a city code.

* Note: All trash haulers provide unlimited yard waste service for a small fee. When people place their yard waste on Preserve property it costs us all. Working together as neighbors we can maintain property values in our neighborhoods.
